# MARYAM TAJAMMAL

**Python Developer | Full-Stack & Machine Learning Enthusiast**

Lahore, Pakistan | 0308 4149230 | maryamsabir499@gmail.com

## PROFILE

Motivated and detail-oriented graduate with a B.A. from the University of the Punjab, currently building practical skills in Python programming, machine learning, frontend and backend web development, and Microsoft Excel/Word. Completed a six-month course in AI Agentic development, with hands-on exposure to core machine learning concepts including Logistic Regression, Linear Regression, and K-Nearest Neighbors (KNN). Seeking an entry-level opportunity to apply strong analytical, programming, and computer skills while continuing to grow as a full-stack developer.

## TECHNICAL SKILLS

- Python Developer — variables, loops, functions, basic data structures
- Machine Learning — Logistic Regression, Linear Regression, KNN model
- Frontend Development — basics of HTML, CSS, and building simple user interfaces
- Backend Development — basics of server-side logic and APIs
- Microsoft Excel — data entry, formulas, formatting, basic spreadsheets
- Microsoft Word / Google Docs — document formatting and preparation
- Data Entry — accurate and fast typing, attention to detail
- Basic understanding of AI Agentic tools and workflows

## PROJECTS

- MCP (Model Context Protocol) — built MCP-based tools connecting AI agents with external services
- FastAPI — developed backend APIs using Python and FastAPI
- Linear Regression Model — built a prediction model using Python and machine learning
- KNN Model — built a K-Nearest Neighbors classification model using Python

## EDUCATION

**Bachelor of Arts (B.A.)**
University of the Punjab, Lahore

## COURSES & TRAINING

- AI Agentic — Six-Month Course (covering Python basics, Machine Learning concepts: Logistic Regression, Linear Regression, KNN)
- NAVTTC — Artificial Intelligence (AI) Course

## LANGUAGES

English, Urdu
